PROJECT DESCRIPTION

The City of St. Helens is seeking a qualified firm to produce a Parks and Recreation Master Plan. This Master Plan will drive City long-range planning, direct decision-making, and resources toward a clearly defined vision for its future, including park improvements and expansions, parks and recreation facilities, open space management, city walkability, recreation programming, and staffing needs over the next 10 years. The planning process will consist of the following components:

- Needs Assessment
 - Evaluating current parks, trails, and recreation systems
 - Review existing adopted plans, including Comprehensive Plan (2006), Transportation Systems Plan (2011), Framework Plan (2015), Parks & Trails Master Plan (2015), Riverfront Connector Plan (2019). Recommend any policy or methodology changes if needed.
 - Review of 2020 Census demographics and provide summary statistics and future anticipations related to families, populations and make recommendations based on anticipated future needs.
 - Review overlapping services including County, School District, Pool District, and City Services to provide potential collaboration recommendations and/or elimination of duplicated services.
- Community Outreach & Engagement
 - Plan a community engagement process that will include two in-person community events and an online survey. Engagement events should help identify future needs in the community and identify unneeded or underutilized assets.
 - Plan for one meeting with Planning Commission for recommendation to City Council.
 - Plan for three meetings with Parks & Recreation Commission for recommendation to City Council. The first meeting should review current standards and identified requests. A second meeting should be midway through the program to recap community engagement events and a final meeting for recommendation of the final plan to City Council.
 - Plan for two meetings with City Council to present mid-way through the project and again for the final plan for adoption.
- Project Lists, Priority Setting, Pricing Estimates
 - Establish a list of projects for each park/area that identify a priority level based on the needs assessment and community engagement. This list should be broken out by specific park and or area (Trail, Park, Recreation Programs, Staffing, Facilities, etc.) along with determination of SDC eligibility for each park project.
 - Establish a level priority of each project based on community feedback. Priority setting should be identified as High (1- 5 years), Mid (6-10 years), and Low (11+ years).
 - Establish any comprehensive plan goals and policy changes if identified.
 - Each project identified should have an estimated cost for budgeting.
 - Ensure compliance and comparison with the Statewide Comprehensive Outdoor Recreation Plan (SCORP 2019-2023) to ensure priorities align to be competitive with grant applications with Oregon Parks & Recreation grant opportunities.
- Financial Planning
 - Coordinate with the City's SDC methodology consultant
 - Review/discuss financial planning for project completion that may include items such as suggested fee schedule changes for current facilities as well as additional funding opportunities

that are used in other communities to fund Parks and Recreation. This would include reviewing potential utility fees, bond/levy, or other financing methods currently used to help fund Parks and Recreation in other communities or organizations.

- Identify staffing needs and funding needs for Parks and Recreation based on current best practices.
- The firm selected will create a complete package for adoption by the governing body.

INTRODUCTION & BACKGROUND

The City of St. Helens is the 40th largest city (14,500 people) in Oregon and is located along the Columbia River approximately 28 miles northwest of Portland. The city covers an area roughly 5.9 square miles. The City of St. Helens is considered the entrance to Columbia County and is also home of Spirit of Halloweentown, a month-long celebration of Halloween that takes place all around the City in October as well as multiple annual events throughout the year. Over the last two years, the City has seen quite an expansion growth of residential development along with apartment complexes.

The City completed a Parks & Trails Master Plan back in 2015 that was done internally. The City has since then completed a number of projects from that Master Plan and identified potential new park ideas to be included.

The City began a Recreation Program in 2018 with funding from grants initially. Since 2018, the City has seen a large growth in our Recreation Program and in 2021, combined Parks and Recreation into one department with a new Parks and Recreation Manager. The Parks and Recreation Manager and department have an intergovernmental agreement to work alongside the St. Helens School District for use of facilities and this should be taken into consideration when planning out future projects as we do not want to duplicate services and features that are already offered within our community. This city and community are heavily engaged in both youth and adult sport leagues like softball and basketball. The City of St. Helens has a separate taxing district for a local pool (Eisenschmidt Pool) that operates as its own entity and taxing district.
