

What's in the Implementation Plan?

The implementation plan will do three things :

1. Outline public sector investment and phasing, and specify the parties involved for each project
2. List and evaluate likely funding tools to be used
3. Document initial and near-term public actions and detail each project in Phase I (see next board)

Example:

Who : The City and Friends of the St. Helens Waterfront

What : Open space and walkway development

Where : North of Tualatin Road during Phase I

When : Part of Phase I public sector infrastructure development

Why : Early public access to the waterfront is a top priority.

How : GO Bonds, urban renewal, and private philanthropy

Public Sector-led Actions

Phase I Actions

Tualatin Road and areas north

- Open Space and Walkway Access
- Development Toolkit
- Pursue public-private partnerships
- U-road and street upgrades in coordination with development

Phase II Actions

Southern half of site

- Extension of the park
- Extension of the street
- Parking for development
- Outlining of future development phases
